## NEWS

### JVC ZOOM TO BE

#### "Remote Production Over The Internet"

You are invited to participate in the next SBE Chapter 38 meeting on Tuesday, **April 13<sup>th</sup> at 11:00 AM MDT**. The meeting will be held virtually using the Zoom Conference Application. The **presentation will be hosted by Edgar Shane with JVC and will discuss Remote Media Production over the Internet.**

Edgar Shane will demonstrate how broadcast-quality video can be sent over the Internet from multiple locations to the studio with minimum equipment and setup time.

Using professional cameras with built-in IP encoders, decoders, and robust SRT QoS provides a simple workflow where multiple video sources can be brought into the central studio over the Internet without compromising

the image quality, and with no added cost of subscription or outboard devices.

Edgar has been responsible for product management, engineering, and new products development at JVC for more than 20 years. Edgar has extensive hands-on experience with shooting, video-over-IP transports, cloud solutions, and REMI applications. Edgar Shane received his MSEE in 1986 and worked as a design engineer for more than 10 years prior to joining the JVC team.

We hope to see you there!
