TASCAM launches USB interface with mixer functionality

Jan 8, 2012 4:25 PM

[TASCAM](#) has launched the US-125M, a USB audio interface. The interface combines a mic, instrument and line source, with a computer audio signal, and it feeds the mix to the user's computer via USB for broadcasting over the Internet. The new interface also provides up to 16 bit/48kHz audio resolution.

The interface features four inputs with dedicated level controls: a microphone input (balanced XLR/TRS on rear or unbalanced mini jack on front) with a switchable limiter and signal/overload indicator, a Guitar input (standard phone jack), a Stereo line input (RCA), and a Stereo audio input from computer via USB.

This USB-powered device is housed in a solid aluminum case and can also be used as a simple stand-alone mixer. It is an affordable, simple-to-use audio interface that is great for all levels of musicians. The loop mix feature also is useful for online streaming, online collaboration, sound-on-sound recording with online video and audio, video production, podcasting, online gaming, musical instruments training and for home recording

ELECTRO-VOICE LAUNCHES COMPACT SUB- WOOFER AT NAMM 2012

Jan 8, 2012 4:11 PM

Electro-Voice's new ZXA1-Sub

[Electro-Voice](#) will launch the ZXA1-Sub at [NAMM 2012](#)

– the matching subwoofer for its ZXA1 compact

Self-powered loudspeaker.

The ZXA1-Sub is designed to provide a combination of portability, performance, and power in a lightweight, small-format package. Though equipped with a heavy-duty 12-in. woofer, a state-of-the-art 700W amplifier, and a durable .6-in wood enclosure, the subwoofer weighs in at just 46lbs. and sports a trim 15.75" x 17.5" x 18" profile.

The new subwoofer has a maximum SPL rating of 126dB for use in small-venue sound reinforcement, and comes with a pole mount for full-range systems. The subwoofer also features easy-to-use controls and connectivity.

Teach others

Brad Dick September 26th, 2011
Can you write? Can you teach?

Want to help others learn about broadcast and production technology?

Broadcast Engineering is now hiring knowledgeable and experienced engineers, operators and managers on a freelance basis to create training materials for our readers. You must have experience in the technology arena in which you propose to write or present. We want the tutorials to be produced by those with first-hand experience.

Three types of training materials are currently under development: webcasts, eBooks and multi-segment video courses. For an example of current products, check out these links:

<http://broadcastengineering.com/specialized-training/>

<http://broadcastengineering.com/webcast/>

Did I mention we pay?

Send a brief email describing your expertise and the eBook, webcast or video series you would like produce to: [edi-
tor@broadcastengineering.com](mailto:editor@broadcastengineering.com)

QAP (what is this?)

JANUARY PROGRAM

WHAT A GOOD TIME WE HAD !

Last December, we had the **DINNER PARTY** . We will like to thank our hosts:

Dan/Tim Geisler with **GBS** and
And the sponsorship of:
John Schaab from **Orban**.

For January, we don't have any presentation, only our regular meeting, but we have some good prospects for the rest of the year,

If you have in mind somebody or a business for a presentation, please bring it to our attention, and we will make room.
